Chalyar - 19110, Swat , Pakistan

OBJECTIVE

Computer Science undergraduate and Laravel Developer with expertise in PHP, Wordpress, HTML5, CSS3, TailwindCSS, and JavaScript, ReactJS, with proficiency in Microsoft Office, affiliate marketing, and Canva. Passionate about building scalable software solutions, problem-solving, and contributing to team success with a focus on quality and efficiency, I am keen to contribute my skills and collaborate on innovative web development projects.

SKILLS

- **Programming Languages:** JavaScript, PHP
- **Web Technologies & Tools:** Laravel, HTML/CSS, Bootstrap, TailwindCSS, Wordpress, ReactJS
- **Database Systems:** MySQL Server, PostgreSQL, PHPMyAdmin, XAMMP
- **Version Control:** Git, Github
- **Documentation & Productivity:** Project Documentation, MS Word, MS Excel, MS Powerpoint, Canva
- **Soft Skills:** Problem-solving, Teamwork, Effective Communication, Affiliate Marketing

EXPERIENCE

- **Front-End Software Engineering Intern**  Jun 2025 - Aug 2025
Forage (SkyScanner) Remote
 - Developed a web application using **React** as a front-end engineer at **Skyscanner**, simulating real-world software engineering tasks.
 - Implemented a travel date selection page utilizing **Skyscanner's** open-source **Backpack React** library, enhancing user interaction.
 - Customized the application and conducted automated tests to ensure proper rendering and functionality.

PROJECTS

- **Property Management System** Personal Project: Jun 2025 - Jul 2025
Tools: Laravel 9, MySQL, TailwindCSS, Alpine.js, Stripe, PayPal, Spatie Permission
 - Built a full-stack property management system with modules for listings, invoices, expenses, and user inquiries.
 - Implemented authentication, role-based permissions, and secure payment integration using Stripe and PayPal.
 - Designed relational database models to manage tenants, properties, and transactions with high scalability.
 - Enhanced UI/UX with TailwindCSS and Alpine.js, delivering a responsive dashboard and reporting tools.
- **EasyDukaan Retail POS System** Personal Project: Aug 2025 - Sept 2025
Tools: Laravel 10, MySQL, React, Redux, Bootstrap, Spatie Permission
 - Built a full-stack point-of-sale system with modules for sales, products, inventory, suppliers, customers, and user management.
 - Implemented authentication and comprehensive role-based permissions using Spatie Permission for secure retail operations.
 - Structured scalable MySQL database models to manage sales, purchases, inventory, users, and reporting.
 - Enhanced UI/UX with React, Redux, and Bootstrap, delivering a responsive dashboard, charts, and reporting tools.

EDUCATION

- **University of Swat** Sept 2022 - Sept 2026
Bachelors of Computer Science Swat, Pakistan
 - CGPA : 3.07/4.00
